Acordes com notas acrescentadas

Podemos acrescentar várias notas em um mesmo acorde, sempre representando na cifra a nota acrescentada através do algarismo correspondente e, se preciso, um sinal que especifica o tipo do intervalo. Não há limite. A seguir, alguns exemplos de acordes com notas acrescentadas.

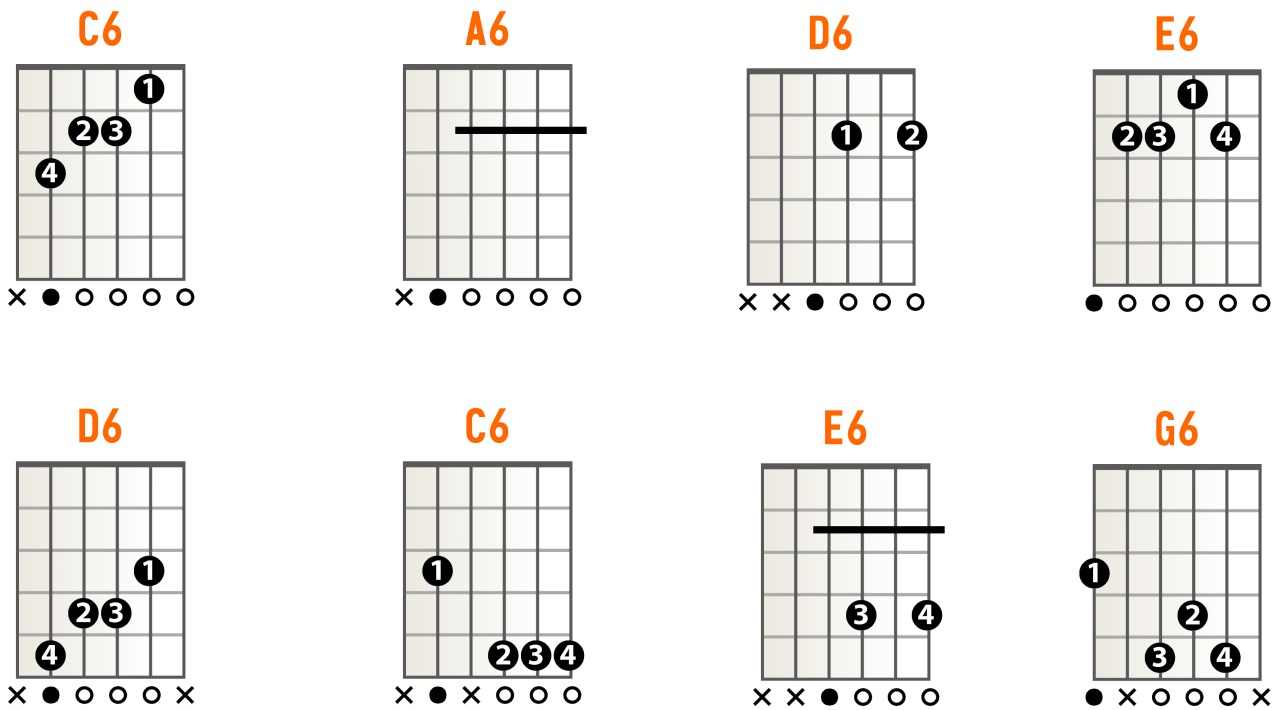

✓ Acordes maiores com nona:

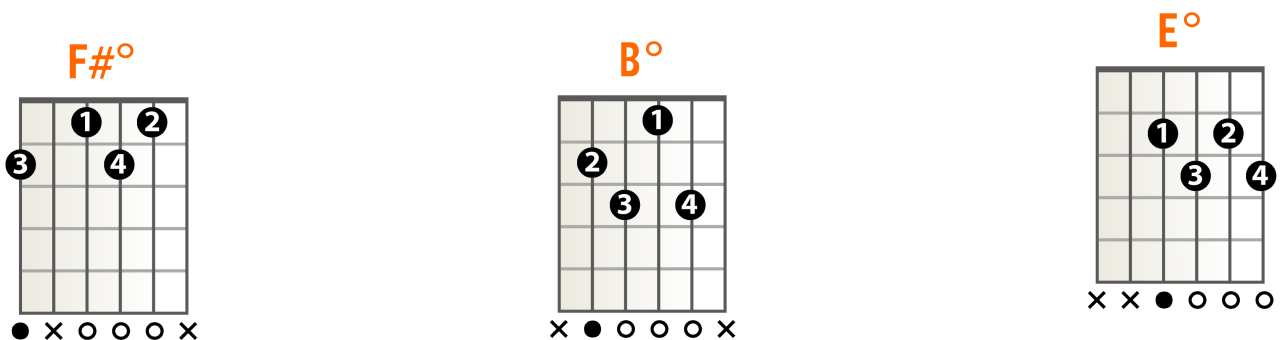

✓ Acordes menores com nona:

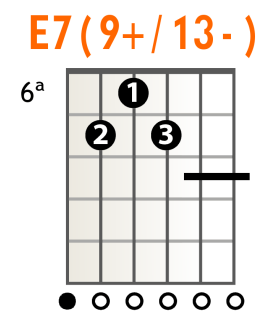

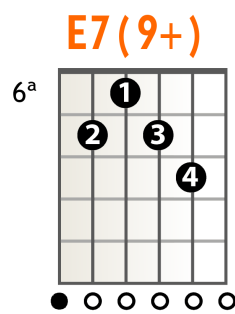

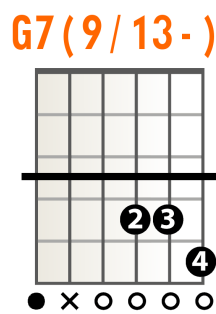

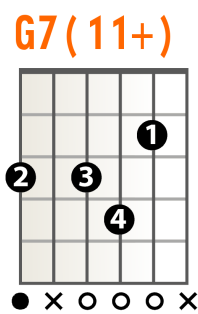

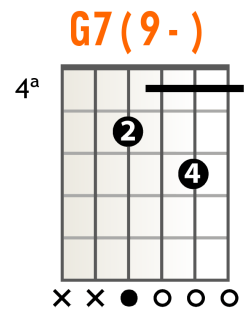

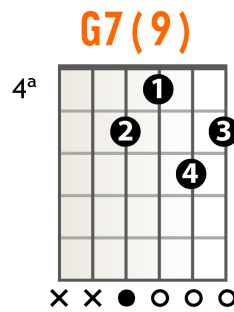

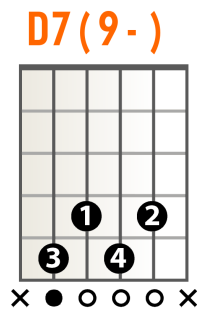

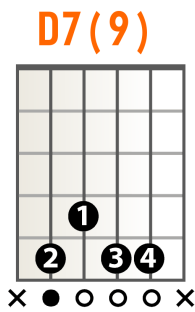

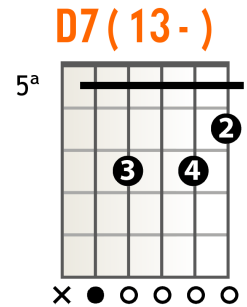

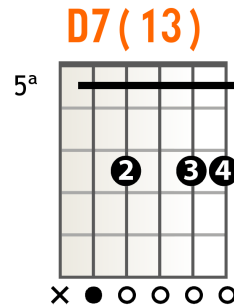

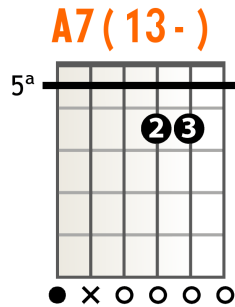

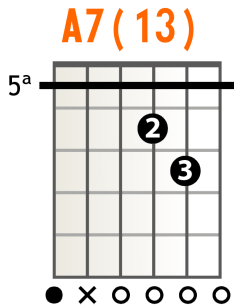

✓ Acordes com sexta:

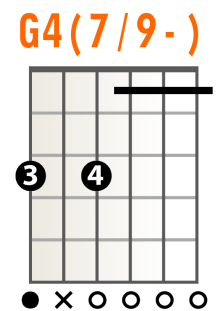

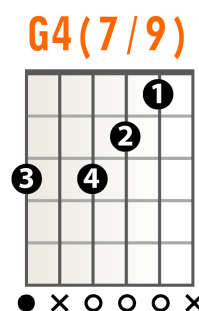

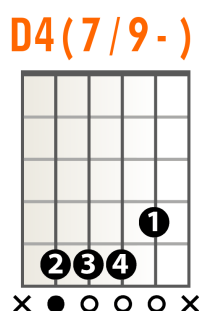

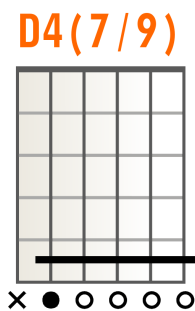

✓ Tétrades diminutas:

✓ Acordes com sétima e outros acréscimos:
